## COMING LEGISLATION

**Senator Chandler Interviewed on Probable Action by Congress.**

## RESTRICTION OF IMMIGRATION

Both Houses Will Endeavor to Bar Undesirable Foreign Element—Relief For Cuban Insurgents—Prospects For Ratification of Hawaiian Treaty—Two New Counterfeits—Other Washington News.

WASHINGTON, Nov. 19.—Senator William E. Chandler of New Hampshire, in an interview regarding legislation at the coming session of congress, said:

"Senator Lodge proposes pushing the measure looking to the restriction of immigration and of demanding its passage without delay. Bills proposing to bar the undesirable foreign element from entering into this country are now pending in both the house and the senate and there is no doubt that the two houses will be able to agree upon a bill. The house measure lays restrictions on what are called 'birds of passage,' but the senate bill does not. The class referred to is that which lives along the northern and southern border lines of the country and embraces Mexicans and Canadians who work daily in the United States, but live in their native countries. This part of the bill, in my judgment, eventually, will be omitted and the senate bill, which applies to immigrants from European and Oriental countries, passed.

"Some action, I believe will be taken looking to the relief of the Cuban insurgents. Of course, the Republican policy will largely depend on the president's message, but my opinion is he will leave the entire matter to the judgment of congress.

"The prospects for the ratification of the Hawaiian treaty are excellent. The Republicans will stand by it to a unit and many Democrats will do likewise. I think the necessary two-thirds vote will be secured.

"As to financial legislation especially as to a revision of the banking laws I cannot see how any such legislation can be passed."

## NEW COUNTERFEITS.

Bogus \$10 Silver Certificate and a National Bank Note Discovered.

WASHINGTON, Nov. 19.—The secret service bureau announces the discovery of a new counterfeit \$10 silver certificate and also a counterfeit national bank note. The silver certificate is a photographic production printed on two pieces of paper pasted together. No attempt has been made to color the back of the note which is a shade of brown instead of green. The seal is colored a bright pink. The note is badly printed and the lathe work is blurred and indistinct. The national bank note is on the First National of Joplin, Mo., series 1882. It is also printed on two pieces of paper and the silk fibre in the genuine is imitated by pen and ink marks.

## PENSIONS.

WASHINGTON, Nov. 19.—Secretary of the Interior Bliss, discussing pensions in his annual report, made public last night, says 200,000 pension claims are awaiting adjudication and if they are rapidly adjudicated they will swell the pension roll from \$5,000,000 to \$7,000,000. When, however, the first payment has been made thereon the amount of the pension roll will decrease very rapidly, possibly to \$125,000,000 or \$130,000,000 the first year.

## Monetary Commission.

WASHINGTON, Nov. 19.—It is announced that the monetary commission hopes to have its report well advanced toward completion by the last of the present week. Any changes which may be thought necessary will be made later, when the commission comes together for final revision and signature. The report is not likely to be made public before Dec. 1.

## Must Pay Their Debts.

WASHINGTON, Nov. 19.—The secretary of the treasury has issued a circular to employees to the effect that clerks receiving a stated salary who neglect to pay their debts contracted for the necessary support of themselves and their families without presenting satisfactory reasons therefor, will not be retained in office.

## Wants to Arbitrate.

WASHINGTON, Nov. 19.—The Peruvian minister called on Secretary Sherman yesterday in reference to the demand of our government for a settlement of the McCord claim and in return he proposed to arbitrate the case. This proposition is not acceptable.

## NANSEN'S NEXT TRIP.

Arrangements Being Made For Another Northern Expedition.

CHRISTIANA, Nov. 19.—H. J. Almer Johannessen, the Norwegian army officer who was with Dr. Nansen in the latter's recent Arctic expedition, referring to the plans for the doctor's next trip north, says arrangements have already been made for a sojourn hut on Franz Josefland. The Fram (Nansen's ship) will be accompanied by a large vessel called the Starkodder. There will be many more dogs and more scientific men, and one of the ships will advance through the ice until it becomes icebound. From there sledge expeditions will start north. The other ship will be along the ice border making scientific researches in the water and at the bottom of the sea.

## Yellow Fever.

NEW ORLEANS, Nov. 19.—A light frost was reported yesterday and the weather continues cool, though the effect on the fever will not be apparent for a few days yet. There were six new cases and two deaths yesterday.

## SHARKEY-GODDARD FIGHT.

Decision Given to the Sailor in the Sixth Round.

SAN FRANCISCO, Nov. 19.—Tom Sharkey has won another questionable battle, his victim this time being Old Joe Goddard, the decrepit barrier champion.

The fight, which was scheduled for 20 rounds, terminated in the sixth, when Sharkey, after landing a stiff right on Goddard's jaw, rushed at his man and knocked him to the floor, literally by force of impact, falling heavily upon him.

Goddard's head struck the canvas with an awful smash, which dazed him. He arose at the end of three seconds and staggered to the ropes, Referee McArthur meanwhile holding the excited sailor back. Amid great confusion McArthur awarded the fight to Sharkey.

## STARVED THE BABY.

Then Exposed It to the Cold to Hasten Its Death.

LOUISVILLE, Nov. 19.—Jackson Gibson and Hattie Pope are under arrest charged with being accessories to the murder of a baby. The mother of the child killed is Sallie Gibson and Jackson Gibson and Hattie Pope are her uncle and aunt.

It is charged that Gibson was the father of the dead baby. It is also charged that the Gibson girl was forced to starve the baby to death by her aunt and uncle and then to expose it to the cold in order to hasten its death. The mother is also in jail.

## TERRIBLE FATALITY.

Lion Tamer Killed by Wild Beasts and a Panic Ensues.

BERLIN, Nov. 19.—A special dispatch describes a terrible fatality in Poland. While a performance of wild beasts and their tamer was in progress at a village near Kovno, Poland, the lion tamer was killed by a lion and a tigress. A fearful panic ensued in the audience and eight persons were crushed to death, many others being seriously injured.

## Intended to Kill the Whole Family.

OTTAWA, O., Nov. 19.—John Firestone, who killed his daughter two miles east of Leipsic on Nov. 15, has regained his reason and tells his family physician that it was his insane intention to kill his entire family and himself and had the opportunity presented the horrible tragedy of Monday would have been greatly aggravated.

## Was Only Visiting.

RICHMOND, Ky., Nov. 19.—Report gained circulation here and elsewhere that the young wife of General Cassius M. Clay had deserted him, but it develops that she is only visiting friends at Valley View, in this county.

## Apologized For Taking One Rig and Drove Off With Another.

UPPER SANDUSKY, O., Nov. 19.—James Williams, a stranger, is under arrest on the charge of horse stealing. He was seen untying a horse and buggy hitched to a post in this city. The owner happened along and the fellow apologized by pleading a mistake. Another rig was standing nearby, and he untied it and drove off. The rig proved to be the property of Mack Smalley, and after a search the rig was found and the fellow arrested.

## No Agreement Reached.

EAST LIVERPOOL, O., Nov. 19.—The Manufacturing Pottery Association of America adjourned yesterday after spending two days in the discussion of the proposed increase in the selling price of ware. No agreement was reached and a formal call will be issued for a meeting of the United States Pottery association. One of the fruits of the conference will be an ironclad compact of all white granite manufacturers in America on prices.

## Rev. Ezra S. Gillette Dead.

BOWLING GREEN, O., Nov. 19.—Rev. Ezra S. Gillette of Cleveland, aged 72, traveling representative in Ohio of the American Bible society, is dead here from congestion of the lungs after a brief illness. He was also a member of the Northern Ohio M. E. conference.

COVINGTON, Ky., Nov. 19.—Duke Croxon, one of the nine men who followed Mr. and Mrs. Gleason out of Newport, Ky., and taking the woman from her husband at the point of a revolver, brutally outraged her, was yesterday found guilty and his punishment was fixed by the jury at 20 years in the penitentiary.

## PAID THE PENALTY

Albert J. Franz Electrocuted For the Murder of Bessie Little.

## HE COOLLY TOOK THE CHAIR

First Shock Did Not Produce Death and the Current Was Applied Three Times. Fainted When He Parted From His Brother and Sister—The Crime For Which He Died.

COLUMBUS, O., Nov. 19.—Albert J. Franz, the murderer of Bessie Little at Dayton, was electrocuted in the annex at the Ohio penitentiary at 12:22 this morning. It was late yesterday afternoon before Governor Bushnell's message refusing to interfere was received.

Franz was visited during the day by a brother and sister and after the parting Franz fainted. He was soon restored to consciousness, however, and had fully regained his composure by the time for the electrocution.

He took his place in the chair at 12:18 without an apparent tremor. The officials were slow in fastening the straps and adjusting the electrodes. The first shock did not cause death, and the current was applied again three times before life was pronounced extinct at 12:22.

The crime for which Franz paid the penalty was the murder on August 27, 1896, of Bessie Little, a young girl whom he had betrayed. Her body was thrown into the Stillwater river where it was found by E. L. Harper jr. while bathing. The unravelling of the crime and the trial furnished one of the most exciting chapters in the criminal history of Ohio. Franz made an alleged confession in which he claimed the girl had shot herself while they were out riding and fearing he would be charged with murder he had thrown the body in the river.

## HORRIBLE.

People Dying at Matanzas, Cuba, by the Hundreds.

BOSTON, Nov. 19.—A letter was received here from Captain Charleson of the 4-masted schooner, Clara E. Randall of Portland, Me., now in port at Matanzas, Cuba, which tells of the great distress and suffering in Cuba.

Captain Charleson says that Matanzas is filled with fever-stricken and dying soldiers and that hundreds of pacifics are dying every week. It is no uncommon sight on the streets to see men lying in the gutter in their last agonies and to see the death carts slowly creeping about gathering up their dead bodies. The people seem to be helpless in their misery and not only is yellow fever playing havoc with them but they are dying of starvation by scores.

Captain Charleson says that he has not been ashore very much since his arrival for fear of catching the fever, and he intends to get the vessel unloaded and away as soon as possible.

## Created a Good Impression.

MADRID, Nov. 19.—At the meeting of the cabinet yesterday a letter from the United States minister, General Stewart L. Woodford, was read, expressing the satisfaction and gratitude of the United States government relative to the settlement of the Competitor case and other current questions. The communication created a good impression in political circles.

## SILVER CONFERENCE.

FRANKFORT, Ky., Nov. 19.—A conference of silver Democratic leaders will be held in Louisville tonight. William Jennings Bryan and Senator James K. Jones of the Democratic National committee will be present to meet about 50 leading politicians of this state.

The situation as regards the best means of keeping up the fight for silver in the state will also be discussed, as well as amendments to the election laws.

## SON'S CRIME.

Murdered His Father, Set Fire to the House and Suicided.

BENTON HARBOR, Mich., Nov. 19.—Henry Kammerer shot his father at their home here late yesterday. The son then set fire to the house and killed himself. The father was rescued from the burning building, but died later. The tragedy resulted from a quarrel over money matters.

## Woman's Experience.

A healthy woman experiences the greatest happiness of her life when her first-born nestles in her neck. Motherhood is a woman's duty and should be her joy. There are thousands of women to whom motherhood is a torture because of weakness and disease of the organs that make it possible. This is wrong and need not be. If a woman will but study the physiology of the organs distinctly feminine, and learn to take the proper care of her health—to take the proper remedy for weakness and disease peculiar to her sex—motherhood will become an unalloyed pleasure, where now it is dreaded and avoided for its pains and dangers.

The best medicine for a woman to take during the period preceding motherhood is Dr. Pierce's Favorite Prescription. It is the only medicine for this purpose invented by a regularly graduated, skilled and expert specialist in the treatment of the peculiar diseases of women. It cures all weakness and disease of the organs that perpetuate the race. It makes them strong and vigorous. It rids the expectant period of its usual discomforts. It insures baby's health and makes its coming easy and almost painless. It is the discovery of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Women who wish to know more of the "Favorite Prescription" should write him.

Frederick, of No. 114 S. Second St., Camden, N. J., writes: "My wife is a customer of yours. She has used 'Favorite Prescription' to prevent miscarriage. She had a sickness last July and suffered untold misery from a severe pain. I repeatedly told her to use your medicine, but she persisted in going to a so-called specialist, whose treatment only made her more sick and miserable. Then she used the 'Favorite Prescription' and was cured."

Pregnance is a matter of health alone. Nothing else. A healthy man can't be unhappy if he wants to. Much sickness is caused by constipation. Dr. Pierce's Pleasant Pellets cure constipation.

## PASSENGER TRAIN WRECKED.

Six Indians Among the Slightly Injured—One Fatally Hurt.

WILFORD, Ark., Nov. 19.—Passenger train No. 2 on the Kansas City, Fort Scott and Memphis road was wrecked west of here yesterday, resulting in the fatal injury of Dr. Hoover of Pleasant Hill, Mo., and the slight injury of 29 other passengers, among whom were six Indians. They are: Clarence Murphy, C. E. Ravenstein, wife and baby, and Wesley Ivins at Atwood, Ind., and R. S. Guy of Monterey, Ind. The train was composed of an express and baggage car, two coaches and a sleeper, one of the coaches being a combination. The train broke in two and jumped the track near a small stream called Green river. The combination coach rolled into the river and the chaircar and sleeper turned on their sides, the latter two taking fire. The passengers were all rescued. Dr. Hoover is said to be the first passenger, if he dies, ever killed on the road.

## WINDOWGLASS WORKERS.

Burns Said to Have Made Concessions to Manufacturers.

PITTSBURG, Nov. 19.—It appears as if a settlement will be made of window-glass scales as far as blowers and gatherers are concerned and the scale will probably be signed today. The wage committee of the windowglass workers' association and allied manufacturers are in session now. The members of the committee to represent the cutters and flatteners notified Simon Burns, president of the association, that they would take no part in the conference. The committee had held an informal meeting with the representatives of manufacturers and an understanding was reached whereby a settlement will be made by the cutters and flatteners independent of the blowers and gatherers.

It is understood that president Burns has made concessions to the manufacturers, but to what extent cannot be learned.

## CATHOLIC KNIGHTS.

Supreme Officers In Semi-Annual Session. Dr. J. Averdick.

NORFOLK, Va., Nov. 16.—The supreme officers of the Catholic Knights of America convened here yesterday in semi-annual session with all officers present. The matter of the contest of former Medical Director J. Averdick of Covington, Ky., for the office now held by Dr. Brennan of Indianapolis, will probably come up today. President Fenney states that up to this time Dr. Averdick has refused to surrender his books. The courts may be called on to compel him to give up the books. Should such a course be resorted to the matter will be carried into the courts under the laws of which the order is chartered. Dr. Averdick, who was in office six years, was removed last May.

## NATIONAL GRANGE.

Refused to Reduce Fees For Women—Lecture Fund Set Aside.

HARRISBURG, Pa., Nov. 19.—A resolution was adopted at yesterday's session of the National Grange, patrons of husbandry, appropriating \$500 for the use of the assembly of the priests of democracy. A resolution to amend the constitution by reducing the fees of women under 21 was defeated. Master elect Aaron Jones of Indiana, made a report in regard to plans for extending the order during the coming year. Five thousand dollars will be set aside as a lecture fund, \$3,000 more than is now used for this purpose. The Grange adjourned last night to meet in Concord, N. H., in November, 1898.

The names of the indicted men are William Sexton, Eli Eads, George Hartsock, Oscar Mitchell, John Mitchell, Everett Chambers, Maurice Lucas, Charles Bodkins and George Palmer. They gave bond in the sum of \$200 each and say they will have to trouble in proving an alibi. The grievance was that the Southers' home was sheltering the Treadway woman. There is much excitement over the indictments.

## LIMITATION IN SECURITY.

Married Woman Cannot Bind Her Property.

INDIANAPOLIS, Nov. 19.—The supreme court, in the case of Harrison Building and Deposit company against Alma B. Lackey, yesterday held that a mortgage given by a married woman upon land in this state as surety for some other person's debt is void, although the contract was made in another state, since our law does not permit a married woman to bind herself or her property as a surety.

The Banner Kicks on its Railroad Facilities. In an article on the recent change in the railroad time table the Brownstown Banner says:

This leaves us with the worst accommodation we have had for many years. No provisions have been made to stop any of the fast trains, as was the case before the Mitchell accommodation was put on, and now it will be impossible to go east of a morning or west of an afternoon or night. We cannot go as far as Seymour and return the same day. There should not be the least delay on the part of our citizens in calling the attention of the railroad officials to the existing conditions, and no doubt they will make arrangements to stop Nos. 3 and 4.

## THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

### CITY COUNCIL.

Regular Meeting of the Official Representatives of the City.

Council met in regular session last night. Gibson and Miller were absent. Thompson was excused soon after roll-call on account of illness.

Minutes read by Clerk McKinney and approved.

The report of the city treasurer for the month of October was read and referred to the finance committee. Amount in treasury Nov. 1, \$8,323.63.

Goodale of finance committee reported that the bonds for street improvement were being printed in accordance with the ordinance adopted at the last meeting of the council. (It should be understood that none of these bonds are issued to pay the city's part for these improvements. The city had money in the treasury to meet all her obligations, and has them paid. The bonds are issued under the Barrett law and cover the assessments against property abutting on the improved streets, or that portion of these assessments which will be paid under the ten year plan as provided by this law.)

Schwing asked that the grade committee be given more time to report on the widening of an alley in the south part of the city, which matter was referred to them at last council meeting.

The improvement committee reported that some trees had been set out in the city park and at the Park School in accordance with the council's instruction but that they did not deem it advisable to increase the number of trees now on the Shields School ground. Report adopted.

The special committee appointed to hear objections to assessments for the improvements made on Vine and Mill streets submitted their report, stating that no objections were offered. They recommended that the assessments made by the civil engineer be adopted and that bills of assessments be issued for same. Adopted.

A petition for a large tile drain from the intersection of Bruce and Chestnut streets north to Tipton, thence to Pine street, was read. The petition was signed by twenty property owners along the line. Referred to grade committee and civil engineer.

Price offered a resolution for the grading and graveling of the sidewalk on the west side of Chestnut street from lot 14 in block 2, north to E. & R. railroad. Adopted.

Price also offered a resolution to dress up and gravel Chestnut street from south line of lot 11, block 2, to the E. & R. railroad. Adopted.

Shields offered a resolution relating to the local gas company, asking that a committee be appointed to make investigations and report how their charges could be brought down to a more reasonable figure.

Shields offered another resolution designating Goodale, Price and Burkley as a committee to employ an expert to make a test of the lights furnished the city by the Electric light company. Adopted.

Claims to the amount of \$245.31 were allowed.

Burkley stated that C. H. Alwes would begin the preparation of a city directory soon and asked that council officially authorize the same, which was done.

Some street repair work was referred to the street commissioner.

The bid ditch just west of the city was ordered cleaned.

Council adjourned at 8:30 o'clock.

Kansans are to have a practical Thanksgiving. The State is swarming with jack rabbits, a few rustic poets. Young orchards are dispoiled and winter-own cereals are ruined. The farmers propose to devote three days before Thanksgiving to hunting and killing rabbits and shipping the same to Chicago and New York for distribution among the poor. Jack rabbit pot pie is a savory dish. Arrangements for transporting the rabbits from Topeka to Chicago and New York have been perfected. In addition to escaping rabbit devastation Kansans will have the pleasure of relieving the poor in two big cities—Chicago and New York.

### SHOOTING AFFRAY.

John Mohr Shoots Sam Butler in the Arm.

There was a shooting affray in town Tuesday night about 6 o'clock, the exact particulars of which are hard to find out.

From what we can learn it seems that John Mohr, a young man of near Kuriz was driving out of town in a buggy. Just after turning E. 1. Wayman's corner he met John Rhinehart, who was driving along in a wagon, with another wagon attached behind. It being dark and Rhinehart being blinded by a street lamp ahead, the men did not see each other until close together, Mohr quickly jerked his horse to one side, but not knowing that there was another wagon attached behind turned in too quick and his buggy collided with the rear wagon. Rhinehart drove quietly on and Mohr got out to examine his buggy, one of the wheels of which was badly damaged.

About this time Sam Butler, of near Goss Mill with several other parties, drove up and Mohr thinking it was Butler's rig with which he collided, commenced to abuse the men and a quarrel ensued, during which Mohr drew a revolver and fired two shots, one of which took effect in Butler's left arm, between the elbow and shoulder inflicting a flesh wound. Immediately after the shooting Mohr disappeared in the darkness, leaving his horse and buggy standing in the road. Butler went over to Ewing where Dr. Wilson dressed the wound.

A warrant, charging Mohr with shooting with intent to kill, was got out about 8 o'clock Tuesday night but up to the hour of going to press he had not been arrested.—Brownstown Banner.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidney, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle W. F. ### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, get your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee effectiveness of this offer.

Commencing next Saturday night, and continuing every Saturday night thereafter, Midland Route tourist cars en route to Colorado, Utah and California will leave the Chicago Union Passenger Station of the Chicago, Milwaukee & St. Paul railway at 10 o'clock running over the Chicago and Omaha Short Line to Omaha, thence via Lincoln, Neb., Colorado Springs and Leadville, Colo., Salt Lake City and Ogden, Utah, Reno, Nevada and Sacramento, Cal., arriving at San Francisco at 8:45 p. m. Wednesday.

As will be noticed, this route is Midland through Northern Illinois, Iowa, Nebraska, Kansas, Colorado, (lowa, through the heart of the Rockies), Utah, Nevada and California, affording a perfect panoramic view of prairie, mountain and coast scenery.

These popular every Saturday California excursions for both first and second class passengers (not foreign emigrants) are "personally conducted" by intelligent, competent and courteous "conductors" who will attend to the wants of all passengers en route. This is an entirely new feature of tourist car service and will be greatly appreciated by families or parties of friends traveling together, or by ladies traveling alone. Particular attention is paid to the care of children who usually get weary on a long journey.

Remember that the Midland Route Tourist Cars are sleeping cars and are supplied with all the accessories necessary to make the journey comfortable and pleasant, and the sleeping berth rate is but \$6.00 (for two persons) from Chicago to California.

Ask the nearest ticket agent for a tourist car "folder" giving complete information about the Midland Route or address "Eastern Manager Midland Route," No. 95 Adams street, Chicago, Ill., or Robt. C. Jones, Traveling Passenger Agent, C. M. & St. P. Ry., 40 Carver Building, Cincinnati, O.

P. J.—Berth reservations are made in the order received up to each Saturday morning. First come first served. n30

## COMING LEGISLATION

**Senator Chandler Interviewed on Probable Action by Congress.**

## RESTRICTION OF IMMIGRATION

Both Houses Will Endeavor to Bar Undesirable Foreign Element—Relief For Cuban Insurgents—Prospects For Ratification of Hawaiian Treaty—Two New Counterfeits—Other Washington News.

WASHINGTON, Nov. 19.—Senator William E. Chandler of New Hampshire, in an interview regarding legislation at the coming session of congress, said:

"Senator Lodge proposes pushing the measure looking to the restriction of immigration and of demanding its passage without delay. Bills proposing to bar the undesirable foreign element from entering into this country are now pending in both the house and the senate and there is no doubt that the two houses will be able to agree upon a bill. The house measure lays restrictions on what are called 'birds of passage,' but the senate bill does not. The class referred to is that which lives along the northern and southern border lines of the country and embraces Mexicans and Canadians who work daily in the United States, but live in their native countries. This part of the bill, in my judgment, eventually, will be omitted and the senate bill, which applies to immigrants from European and Oriental countries, passed."

"Some action, I believe will be taken looking to the relief of the Cuban insurgents. Of course, the Republican policy will largely depend on the president's message, but my opinion is he will leave the entire matter to the judgment of congress."

"The prospects for the ratification of the Hawaiian treaty are excellent. The Republicans will stand by it to a unit and many Democrats will do likewise. I think the necessary two-thirds vote will be secured."

"As to financial legislation especially as to a revision of the banking laws I cannot see how any such legislation can be passed."

**NEW COUNTERFEITS.**  
Bogus \$10 Silver Certificate and a National Bank Note Discovered.

WASHINGTON, Nov. 19.—The secret service bureau announces the discovery of a new counterfeit \$10 silver certificate and also a counterfeit national bank note. The silver certificate is a photographic production printed on two pieces of paper pasted together. No attempt has been made to color the brown of the note which is a shade of brown instead of green. The seal is colored a bright pink. The note is badly printed and the lathe work is blurred and indistinct. The national bank note is on the First National of Joplin, Mo., series 1882. It is also printed on two pieces of paper and the silk fibre in the genuine is imitated by pen and ink marks.

**Pensions.**  
WASHINGTON, Nov. 19.—Secretary of the Interior Bliss, discussing pensions in his annual report, made public last night, says 200,000 pension claims are awaiting adjudication and if they are rapidly adjudicated they will swell the pension roll from \$5,000,000 to \$7,000,000. When, however, the first payment has been made thereon the amount of the pension roll will decrease very rapidly, possibly to \$125,000,000 or \$130,000,000 the first year.

**Monetary Commission.**

## PAID THE PENALTY

**Albert J. Franz Electrocuted For the Murder of Bessie Little.**

## HE COOLLY TOOK THE CHAIR

First Shock Did Not Produce Death and the Current Was Applied Three Times. Fainted When He Parted From His Brother and Sister—The Crime For Which He Died.

COLUMBUS, O., Nov. 19.—Albert J. Franz, the murderer of Bessie Little at Dayton, was electrocuted in the annex at the Ohio penitentiary at 12:22 this morning. It was late yesterday afternoon before Governor Bushnell's message refusing to interfere was received.

Franz was visited during the day by a brother and sister and after the parting Franz fainted. He was soon restored to consciousness, however, and had fully regained his composure by the time for the electrocution.

He took his place in the chair at 12:18 without an apparent tremor. The officials were slow in fastening the straps and adjusting the electrodes. The first shock did not cause death, and the current was applied again three times before life was pronounced extinct at 12:22.

The crime for which Franz paid the penalty was the murder on August 27, 1896, of Bessie Little, a young girl whom he had betrayed. Her body was thrown into the Stillwater river where it was found by E. L. Harper jr. while bathing. The unravelling of the crime and the trial furnished one of the most exciting chapters in the criminal history of Ohio.

Franz made an alleged confession in which he claimed the girl had shot herself while they were out riding and fearing he would be charged with murder he had thrown the body in the river.

**HORRIBLE.**  
People Dying at Matanzas, Cuba, by the Hundreds.

BOSTON, Nov. 19.—A letter was received here from Captain Charleson of the 4-masted schooner, Clara E. Randall of Portland, Me., now in port at Matanzas, Cuba, which tells of the great distress and suffering in Cuba.

Captain Charleson says that Matanzas is filled with fever stricken and dying soldiers and that hundreds of pacificos are dying every week. It is no uncommon sight on the streets to see men lying in the gutter in their last agonies and to see the death carts slowly creeping about gathering up their dead bodies. The people seem to be helpless in their misery and not only is yellow fever playing havoc with them but they are dying of starvation by scores.

Captain Charleson says that he has not been ashore very much since his arrival for fear of catching the fever, and he intends to get the vessel unloaded and away as soon as possible.

Matanzas, which was once one of the busiest ports on the island, is now almost deserted, he says, and everywhere there is death and pestilence.

Burns Said to Have Made Concessions to Manufacturers.

The wage committee of the windowglass workers' association and allied manufacturers are in session now. The members of the committee to represent the cutters and flatteners notified Simon Burns, president of the association, that they would take no part in the conference. The committee had held an informal meeting with the representatives of manufacturers and an understanding was reached whereby a settlement will be made by the cutters and flatteners independent of the blowers and gatherers.

It is understood that president Burns has made concessions to the manufacturers, but to what extent cannot be learned.

Attempt by a Diamond Importer to Defraud the Government.

NEW YORK, Nov. 19.—An attempt to defraud the government was prevented by the United States appraiser here when an importation involving 300 and 300 carats of small diamonds was invoiced at about \$24 per carat. The diamonds had evidently been put in a solution of resin and grease, thus dulling their color to such an extent that the diamonds appeared to be of little value. When washed in alcohol and hot water the appraiser found the diamonds were of a fine quality and exceptionally well cut.

The duties and penalties upon this invoice will now amount to more than \$4,500, whereas under a correct invoice less than \$1,000 would have been demanded.

The doctor claims that the college custom has been not to exact work of the president and professors during vacation. A number of outside college presidents have been summoned to testify on the vacation issue.

Colonel Everett of Cleveland Booked For the Position.

CLEVELAND, Nov. 19.—Colonel Sylvester T. Everett, of this city, is to succeed Major Moses P. Handy as special commissioner to the Paris exposition in 1900. It was originally intended to allow Major Handy to continue as special commissioner, and have made Mr. Everett the regular commissioner, but now Major Handy is to facilitate matters by resigning, an action made necessary by some private business duties. Just when Colonel Everett will be appointed is not known. Colonel Allen T. Brinsmade, who has made several tours of Europe, and is very familiar with the continent, will be Colonel Everett's secretary.

This leaves us with the worst accommodation we have had for many years. No provisions have been made to stop any of the fast trains, as was the case before the Mitchell accommodation was put on, and now it will be impossible to go east of a morning or west of an afternoon or night. ## THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

### CITY COUNCIL.

Regular Meeting of the Official Representatives of the City.

Council met in regular session last night. Gibson and Miller were absent. Thompson was excused soon after roll-call on account of illness.

Minutes read by Clerk McKinney and approved.

The report of the city treasurer for the month of October was read and referred to the finance committee. Amount in treasury Nov. 1, \$8,323.63.

Goodale of finance committee reported that the bonds for street improvement were being printed in accordance with the ordinance adopted at the last meeting of the council. (It should be understood that none of these bonds are issued to pay the city's part for these improvements. The city had money in the treasury to meet all her obligations, and has them paid. The bonds are issued under the Barrett law and cover the assessments against property abutting on the improved streets, or that portion of these assessments which will be paid under the ten year plan as provided by this law.)

Schwing asked that the grade committee be given more time to report on the widening of an alley in the south part of the city, which matter was referred to them at last council meeting.

The improvement committee reported that some trees had been set out in the city park and at the Park School in accordance with the council's instruction but that they did not deem it advisable to increase the number of trees now on the Shields School ground. Report adopted.

The special committee appointed to hear objections to assessments for the improvements made on Vine and Mill streets submitted their report, stating that no objections were offered. They recommended that the assessments made by the civil engineer be adopted and that bills of assessments be issued for same. Adopted.

A petition for a large tile drain from the intersection of Bruce and Chestnut streets north to Tipton, thence to Pine street, was read. The petition was signed by twenty property owners along the line. Referred to grade committee and civil engineer.

Price offered a resolution for the grading and graveling of the sidewalk on the west side of Chestnut street from lot 14 in block 2, north to E. & R. railroad. Adopted.

Price also offered a resolution to dress up and gravel Chestnut street from south line of lot 11, block 2, to the E. & R. railroad. Adopted.

Shields offered a resolution relating to the local gas company, asking that a committee be appointed to make investigations and report how their charges could be brought down to a more reasonable figure.

Shields offered another resolution designating Goodale, Price and Burkley as a committee to employ an expert to make a test of the lights furnished the city by the Electric light company. Adopted.

Claims to the amount of \$245.31 were allowed.

Burkley stated that C. H. Alwes would begin the preparation of a city directory soon and asked that council officially authorize the same, which was done.

Some street repair work was referred to the street commissioner.

The big ditch just west of the city was ordered cleaned.

Council adjourned at 8:30 o'clock.

The household god of today is Dr. King's New Discovery. For consumption, coughs, colds and for all affections of Throat, Chest and Lungs it is invaluable. It has been tried for a quarter of a century and is guaranteed to cure, or money returned. No household should be without this good angel. Kansans are to have a practical Thanksgiving. The State is swarming with jack rabbits, a destructive pest. Young orchards are deplored and winter-sown cereals are ruined. The farmers propose to devote three days before Thanksgiving to hunting and killing rabbits and shipping the same to Chicago and New York for distribution among the poor. Jack rabbit pot pie is a savory dish. Arrangements for transporting the rabbits from Topeka to Chicago and New York have been perfected. In addition to escaping rabbit devastation Kansans will have the pleasure of relieving the poor in two big cities.—Times-Star.

### SHOOTING AFFRAY.

John Mohr Shoots Sam Butler in the Arm.

There was a shooting affray in town Tuesday night about 6 o'clock, the exact particulars of which are hard to find out.

From what we can learn it seems that John Mohr, a young man of near Kurtz was driving out of town in a buggy. Just after turning E. Wayman's corner he met John Rhinehart, who was driving along in a wagon, with another wagon attached behind. It being dark and Rhinehart being blinded by a street lamp ahead, the men did not see each other until close together. Mohr quickly jerked his horse to one side, but not knowing that there was another wagon attached behind turned in too quick and his buggy collided with the rear wagon. Rhinehart drove quietly on and Mohr got out to examine his buggy, one of the wheels of which was badly damaged.

About this time Sam Butler, of near Goes Mill with several other parties, drove up and Mohr thinking it was Butler's rig with which he collided, commenced to abuse the men and a quarrel ensued, during which Mohr drew a revolver and fired two shots, one of which took effect in Butler's left arm, between the elbow and shoulder inflicting a flesh wound. Immediately after the shooting Mohr disappeared in the darkness, leaving his horse and buggy standing in the road. Butler went over to Ewing where Dr. Wilson dressed the wound.

A warrant, charging Mohr with shooting with intent to kill, was got out about 8 o'clock Tuesday night but up to the hour of going to press he had not been arrested.—Brown's Own Banner.

### Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidney, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle W. F. Peter's Drug Store.

### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. ## COMING LEGISLATION

**Senator Chandler Interviewed on Probable Action by Congress.**

### RESTRICTION OF IMMIGRATION

Both Houses Will Endeavor to Bar Undesirable Foreign Element—Relief For Cuban Insurgents—Prospects For Ratification of Hawaiian Treaty—Two New Counterfeits—Other Washington News.

WASHINGTON, Nov. 19.—Senator William E. Chandler of New Hampshire, in an interview regarding legislation at the coming session of congress, said:

"Senator Lodge proposes pushing the measure looking to the restriction of immigration and of demanding its passage without delay. Bills proposing to bar the undesirable foreign element from entering into this country are now pending in both the house and the senate and there is no doubt that the two houses will be able to agree upon a bill. The house measure lays restrictions on what are called 'birds of passage,' but the senate bill does not. The class referred to is that which lives along the northern and southern border lines of the country and embraces Mexicans and Canadians who work daily in the United States, but live in their native countries. This part of the bill, in my judgment, eventually, will be omitted and the senate bill, which applies to immigrants from European and Oriental countries, passed.

"Some action, I believe will be taken looking to the relief of the Cuban insurgents. Of course, the Republican policy will largely depend on the president's message, but my opinion is he will leave the entire matter to the judgment of congress.

"The prospects for the ratification of the Hawaiian treaty are excellent. The Republicans will stand by it to a unit and many Democrats will do likewise. I think the necessary two-thirds vote will be secured.

"As to financial legislation especially as to a revision of the banking laws I cannot see how any such legislation can be passed."

### NEW COUNTERFEITS.

Hogus \$10 Silver Certificate and a National Bank Note Discovered.

WASHINGTON, Nov. 19.—The secret service bureau announces the discovery of a new counterfeit \$10 silver certificate and also a counterfeit national bank note. The seal is colored a bright pink. The note is badly printed and the lathe work is blurred and indistinct. The national bank note is on the First National of Joplin, Mo., series 1882. It is also printed on two pieces of paper and the silk fibre in the genuine is imitated by pen and ink marks.

WASHINGTON, Nov. 19.—Secretary of the Interior Bliss, discussing pensions in his annual report, made public last night, says 200,000 pension claims are awaiting adjudication and if they are rapidly adjudicated they will swell the pension roll from \$5,000,000 to \$7,000,000. ## PAID THE PENALTY

**Albert J. Franz Electrocuted For the Murder of Bessie Little.**

### HE COOLLY TOOK THE CHAIR

First Shock Did Not Produce Death and the Current Was Applied Three Times. Fainted When He Parted From His Brother and Sister—The Crime For Which He Died.

COLUMBUS, O., Nov. 19.—Albert J. Franz, the murderer of Bessie Little at Dayton, was electrocuted in the annex at the Ohio penitentiary at 12:22 this morning. It was late yesterday afternoon before Governor Bushnell's message refusing to interfere was received.

Franz was visited during the day by a brother and sister and after the parting Franz fainted. He was soon restored to consciousness, however, and had fully regained his composure by the time for the electrocution.

He took his place in the chair at 12:15 without an apparent tremor. The officials were slow in fastening the straps and adjusting the electrodes. The first shock did not cause death, and the current was applied again three times before life was pronounced extinct at 12:32.

The crime for which Franz paid the penalty was the murder on August 27, 1896, of Bessie Little, a young girl whom he had betrayed. Her body was thrown into the Stillwater river where it was found by E. L. Harper Jr. while bathing. The unravelling of the crime and the trial furnished one of the most exciting chapters in the criminal history of Ohio. Franz made an alleged confession in which he claimed the girl had shot herself while they were out riding and fearing he would be charged with murder he had thrown the body in the river.

## THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles"

give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

### CITY COUNCIL.

Regular Meeting of the Official Representatives of the City.

Council met in regular session last night. Gibson and Miller were absent. Thompson was excused soon after roll-call on account of illness.

Minutes read by Clerk McKinney and approved.

The report of the city treasurer for the month of October was read and referred to the finance committee. Amount in treasury Nov. 1, \$8,323.63.

Goodale of finance committee reported that the bonds for street improvement were being printed in accordance with the ordinance adopted at the last meeting of the council. (It should be understood that none of these bonds are issued to pay the city's part for these improvements. The city had money in the treasury to meet all her obligations, and has them paid. The bonds are issued under the Barrett law and cover the assessments against property abutting on the improved streets, or that portion of these assessments which will be paid under the ten year plan as provided by this law.)

Schwing asked that the grade committee be given more time to report on the widening of an alley in the south part of the city, which matter was referred to them at last council meeting.

The improvement committee reported that some trees had been set out in the city park and at the Park School in accordance with the council's instruction but that they did not deem it advisable to increase the number of trees now on the Shields School ground. Report adopted.

The special committee appointed to hear objections to assessments for the improvements made on Vine and Mill streets submitted their report, stating that no objections were offered. They recommended that the assessments made by the civil engineer be adopted and that bills of assessments be issued for same. Adopted.

A petition for a large tile drain from the intersection of Bruce and Chestnut streets north to Tipton, thence to Pine street, was read. The petition was signed by twenty property owners along the line. Referred to grade committee and civil engineer.

Price offered a resolution for the grading and graveling of the sidewalk on the west side of Chestnut street from lot 14 in block 2, north to E. & R. railroad. Adopted.

Price also offered a resolution to dress up and gravel Chestnut street from south line of lot 11, block 2, to the E. & R. railroad. Adopted.

Shields offered a resolution relating to the local gas company, asking that a committee be appointed to make investigations and report how their charges could be brought down to a more reasonable figure.

Shields offered another resolution designating Goodale, Price and Burkley as a committee to employ an expert to make a test of the lights furnished the city by the Electric light company. Adopted.

Claims to the amount of \$245.31 were allowed.

Burkley stated that C. H. Alves would begin the preparation of a city directory soon and asked that council officially authorize the same, which was done.

Some street repair work was referred to the street commissioner.

The big ditch just west of the city was ordered cleaned.

Council adjourned at 8:30 o'clock.

Kansans are to have a practical Thanksgiving. The State is swarming with jack rabbits, a delectable and winter downy delicacy. The farmers propose to devote three days before Thanksgiving to hunting and killing rabbits and shipping the same to Chicago and New York for distribution among the poor. In addition to escaping rabbit devastation Kansans will have the pleasure of relieving the poor in two big cities—Times-Star.

### SHOOTING AFFRAY.

John Mohr Shoots Sam Butler in the Arm.

There was a shooting affray in town Tuesday night about 6 o'clock, the exact particulars of which are hard to find out.

From what we can learn it seems that John Mohr, a young man of near Kuriz was driving out of town in a buggy. Just after turning E. 11 Wayman's corner he met John Rhinehart, who was driving along in a wagon, with another wagon attached behind. It being dark and Rhinehart being blinded by a street lamp ahead, the men did not see each other until close together, Mohr quickly jerked his horse to one side, but not knowing that there was another wagon attached behind turned in too quick and his buggy collided with the rear wagon. Rhinehart drove quietly on and Mohr got out to examine his buggy, one of the wheels of which was badly damaged.

About this time Sam Butler, of near Goss Mill with several other parties, drove up and Mohr thinking it was Butler's rig with which he collided, commenced to abuse the men and a quarrel ensued, during which Mohr drew a revolver and fired two shots, one of which took effect in Butler's left arm, between the elbow and shoulder inflicting a flesh wound. Immediately after the shooting Mohr disappeared in the darkness, leaving his horse and buggy standing in the road. Butler went over to Ewing where Dr. Wilson dressed the wound.

A warrant, charging Mohr with shooting with intent to kill, was got out about 8 o'clock Tuesday night but up to the hour of going to press he had not been arrested.—Browns'own Banner.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidney, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle. W. F. Peter's Drug Store.

### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other disease.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee effectiveness of this offer.

## AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of Chas. H. Fletcher on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of Chas. H. Fletcher on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.
